CONTENTS

VOL. 13, NO. 1, FEBRUARY 1983

1 *Walter T. Momot and Howard Gowing:* Some factors regulating cohort production of the crayfish, *Orconectes virilis*

13 *M. A. Learner, J. W. Densem and T. C. Iles:* A comparison of some classification methods used to determine benthic macro-invertebrate species associations in river survey work based on data obtained from the River Ely, South Wales

37 *Gary R. Carvalho and Roger N. Hughes:* The effect of food availability, female culture-density and photoperiod on ephippia production in *Daphnia magna* Straus (Crustacea: Cladocera)

47 *Richard B. Brugam and Carol Patterson:* The A/C (Araphidineae/Centrales) ratio in high and low alkalinity lakes in eastern Minnesota

57 *J. S. Rounick and M. J. Winterbourn:* The formation, structure and utilization of stone surface organic layers in two New Zealand streams

73 *Gerald L. Krausse, Claire L. Schelske and Curtiss O. Davis:* Comparison of three wet-alkaline methods of digestion of biogenic silica in water

83 *I. D. Wallace and Brenda Wallace:* A revised key to larvae of the genus *Plectrocnemia* (Polycentropodidae: Trichoptera) in Britain, with notes on *Plectrocnemia brevis* McLachlan

89 *E. Frempong:* Diel aspects of the thermal structure and energy budget of a small English lake

103 **Book Reviews; Short Notice**

VOL. 13, NO. 2, APRIL 1983

105 *James H. Johnson:* Diel food habits of two species of setipalpian stoneflies (Plecoptera) in tributaries of the Clearwater River, Idaho

113 *Ralph R. Turner, Edward A. Laws and Robert C. Harriss:* Nutrient retention and transformation in relation to hydraulic flushing rate in a small impoundment

129 *E. Frempong:* A laboratory simulation of diel changes affecting cellular composition of the dinoflagellate *Ceratium hirundinella*

139 *Ian J. Winfield, Graeme Peirson, Martin Cryer and Colin R. Townsend:* The behavioural basis of prey selection by underyearling bream (*Abramis brama* (L.)) and roach (*Rutilis rutilis* (L.))

151 *E. A. Shoesmith and A. J. Brook:* Monovalent–divalent cation ratios and the occurrence of phytoplankton, with special reference to the desmids

157 *Robert M. Dorazio and John T. Lehman:* Optimal reproductive strategies in age-structured populations of zooplankton

177 *Judy L. Meyer and Carol Johnson:* The influence of elevated nitrate concentration on rate of leaf decomposition in a stream

185 *Lena B.-M. Petersen and Robert C. Petersen, Jr:* Anomalies in hydropsychid capture nets from polluted streams

193 *J. Denis Newbould, Jerry W. Elwood, Mel S. Schulze, Robert W. Stark and Judy C. Barmeier:* Continuous ammonium enrichment of a woodland stream: uptake kinetics, leaf decomposition, and nitrification

VOL. 13, NO. 3, JUNE 1983

205 *P. Clare and R. W. Edwards:* The macroinvertebrate fauna of the drainage channels of the Gwent Levels, South Wales
227 *Carlos Pedrós-Alió and T. D. Brock:* The impact of zooplankton feeding on the epilimnetic bacteria of a eutrophic lake
241 *Ellen van Donk and J. Ringelberg:* The effect of fungal parasitism on the succession of diatoms in Lake Maarsseveen I (The Netherlands)
253 *David Strayer:* The effects of surface geology and stream size on freshwater mussel (Bivalvia, Unionidae) distribution in southeastern Michigan, U.S.A.
265 *Lars Leonardson:* Effects of concentrating phytoplankton on the acetylene-reduction assay for nitrogenase activity
275 *Grace A. Wyngaard: In situ* life table of a subtropical copepod
283 *C. A. Mills, J. S. Welton and E. L. Rendle:* The age, growth and reproduction of the stone loach *Noemacheilus barbatulus* (L.) in a Dorset chalk stream
293 *R. C. Wright:* A simplified 1,10-phenanthroline technique suitable for the determination of dissolved iron in remote sources of water
297 **Book Reviews; Short Notices**

VOL. 13, NO. 4, AUGUST 1983

301 *Leonard A. Smock:* The influence of feeding habits on whole-body metal concentrations in aquatic insects
313 *Leonard A. Smock:* Relationships between metal concentrations and organism size in aquatic insects
323 *D. W. Sutcliffe and T. R. Carrick:* Chemical composition of water-bodies in the English Lake District: relationships between chloride and other major ions related to solid geology, and a tentative budget for Windermere
353 *Brian Rippey:* The physical limnology of Augher Lough (Northern Ireland)
363 *Louis A. Kaplan and Thomas L. Bott:* Microbial heterotrophic utilization of dissolved organic matter in a piedmont stream
379 *R. J. Post:* The annual cycle of *Simulium erythrocephalum* (Diptera: Simuliidae) at a site in Norfolk
389 *Bo Riemann:* Biomass and production of phyto- and bacterio-plankton in eutrophic Lake Tystrup, Denmark
399 **Book Reviews; Short Notices**

VOL. 13, NO. 5, OCTOBER 1983

403 *Joanne O'Neill Morin and Kenneth D. Kimball:* Relationship of macrophyte-mediated changes in the water column to periphyton composition and abundance
415 *D. W. Sutcliffe and T. R. Carrick:* Relationships between chloride and major cations in precipitation and streamwaters in the Windermere catchment (English Lake District)
443 *J. M. Brewis and K. Bowler:* A study of the dynamics of a natural population of the freshwater crayfish, *Austropotamobius pallipes*
453 *K. Sadler:* A model relating the results of low pH bioassay experiments to the fishery status of Norwegian lakes

465 *P. R. Sterry, J. D. Thomas and R. L. Patience:* Behavioural responses of *Biomphalaria glabrata* (Say) to chemical factors from aquatic macrophytes including decaying *Lemna paucicostata* (Hegelm ex Engelm)
477 *David R. Bayne, John M. Lawrence and John A. McGuire:* Primary productivity studies during early years of West Point Reservoir, Alabama–Georgia
491 *Teresa J. Crease and Paul D. N. Hebert:* A test for the production of sexual pheromones by *Daphnia magna* (Crustacea: Cladocera)
497 **Book Reviews**

VOL. 13, NO. 6, DECEMBER 1983

501 *M. L. Ostrofsky, F. G. Jacobs and J. Rowan:* Evidence for the production of extracellular herbivore deterrents by *Anabaena flos-aquae*
507 *Patrick Denny, Philip T. Orr and David J. C. Erskine:* Potentiometric measurements of carbon dioxide flux of submerged aquatic macrophytes in pH-statted natural waters
521 *Colin R. Townsend, Alan G. Hildrew and Jeanette Francis:* Community structure in some southern English streams: the influence of physicochemical factors
545 *C. M. Drake and J. M. Elliott:* A new quantitative air-life sampler for collecting macroinvertebrates on stony bottoms in deep rivers
561 *Laurie Elizabeth Barnes:* The colonization of ball-clay ponds by macroinvertebrates and macrophytes
579 *J. G. M. Cuppen:* On the habitats of three species of the genus *Hygrotus* Stephens (Coleoptera: Dytiscidae)
589 *D. A. Milton and A. H. Arthington:* Reproduction and growth of *Craterocephalus marjoriae* and *C. stercusmuscarum* (Pisces: Atherinidae) in south-eastern Queensland, Australia
599 **Book Review**
600 **Author Index to Volume 13**
